

---

01. **I want to find a job that I love. Things I already love: designing innovative products, empowering people, and improving the world.**

02. **AlphaSense, Inc.** 06/15 - 05/17  
HEAD OF DESIGN

AlphaSense is the leader in intelligent search for the financial industry, with products for desktop and mobile. As Head of Design I participated in every aspect of the product development process, working closely with our product managers, developers, and executives to deliver on our vision. In addition to personally creating strategy, detailed interaction/visual design and product specifications, I built and managed our design team.

**Entangled Ventures** 03/14 - 05/15  
VICE PRESIDENT OF DESIGN

Entangled Ventures builds and invests in companies in educational technology. I supported our various portfolio companies by acting as their Head of Design—consulting into their product design, development, research, and hiring processes.

**Huge** 01/13 - 05/13  
EXPERIENCE DIRECTOR

I joined Huge—a full-service digital agency with user experience as its focus—as Experience Director for their newly created San Francisco office. I owned our premier client project, leading the interaction design & strategy efforts for a mobile-focused product. I mentored a team of UX designers and actively developed new processes and deliverables for the office.

**Thomson Reuters** 05/12 - 01/13  
SENIOR DIRECTOR OF USER EXPERIENCE

Thomson Reuters, a former consulting client, invited me to establish the design practice for their Investment Management group. I guided the design of all our products from concept to delivery, leading a team of interaction & visual designers to create solutions that supported our users' goals and responded to business needs.

**Daniel Kuo Consulting** 04/10 - present  
INDEPENDENT CONSULTANT

**Cooper** 01/05 - 03/10  
SENIOR DESIGN CONSULTANT

**Adspace Networks Inc.** 04/03 - 12/04  
MOTION GRAPHICS DESIGNER

**Nanz Inc.** 12/01 - 10/02  
LEAD DESIGNER

03. I am a design leader with over 15 years experience creating digital products. I come from a background in visual design & branding, but my core strength is working in a hybrid visual-interaction role.

I have led design and branding efforts—as both a consultant and on in-house teams—over a wide range of products, including: wearables, mobile, medical, financial, enterprise, and consumer. My print experience includes magazine ads, environmental graphics, and book design.

I have experience managing clients, building teams, supporting development, and mentoring design staff. I also have teaching experience in a university environment.

I trained as a photographer and have worked with small, medium, and large formats, in both film and digital systems.

04. Carnegie Mellon University / School of Design  
Pittsburgh, Pennsylvania
